TEXAS NEGRO LYNCHED

DUDLEY MORGAN BURNED AT
THE STAKE AT LANSING
FOR ASSAULT.

MOB TAKES ITS OWN TIME

The Wretch Is Tortured in a Slow and Painful Manner and Not Until He Becomes Unconscious Is the Fire Started—Husband of His Victim the One to Apply the Match—Portions of the Remains Carried Off as Relics.

Longview, Tex., May 23.—A man hunt which had been in progress since last Saturday ended during the day in the burning at the stake of Dudley Morgan, colored, who assaulted Mrs. McKee, wife of a Texas and Pacific section foreman, at Lansing, Tex. When it was learned that the negro had been captured and was being taken to Lansing for identification the excitement of the people knew no bounds. By 11 a. m. great throngs had gathered at the Lansing switch and arrangements were made to burn the negro. Just before 11 o'clock the train bearing the prisoner and his captors arrived in Marshall and was met by a great crowd of people. Many more boarded the train at Hallville and when it arrived at Lansing every available place on it was occupied. Waiting at Lansing was another large crowd from Longview and the surrounding country.

The negro was not taken from the train on the side where the crowd was and when the engine started to pull out several Winchester were leveled at him and others of the train crew and they were threatened with death. The prisoner was identified by Mrs. McKee and several negroes who worked on the section with Morgan. Mrs. McKee said they had the right man and the negro was escorted by about 200 men armed with Winchester to the place of execution. As he was chained to the stake he made a statement in which he implicated another negro named Franklin Heard, saying Heard was to get part of the money which was to be stolen.

Morgan confessed to having committed the crime and after he had been securely chained to the stake or rail, with his hands and legs free, the members of the mob began to take railroad ties from a fire already started and burn out his eyes. They then held the redhot and burning timbers to his neck, and, after burning his clothes off, to other parts of his body. The negro screamed in agony. He was

Tortured in a Slow and Painful Manner with the crowd clamoring continually for a slow death, and the man, writhing and groaning, begged piteously to be shot. Mrs. McKee was brought to the scene in a carriage, accompanied by four other women, and an effort was made to get the carriage close enough for her to see the negro. The crowd was so dense, however, that this was impossible.

Persons held each other on their shoulders, taking turns about looking at the awful sight. The negro's head finally dropped and the ties were piled around and over him. In half an hour only the trunk of his body remained. As soon as the heat would permit the crowd with long sticks began a grewsome search for relics. Parts of his skull and body were gathered up by some and carried away. As the fire died down the crowd took the two men who first caught the negro and held them over their heads, while they held their Winchester in their hands and were photographed.

From the time the first fire was applied to the negro's body until the dying embers alone were left the crowd yelled and cheered for the men who had chased the negro.

Section Foreman McKee, husband of the woman assaulted, applied the match to the fagots. Many women were present from the surrounding country, but owing to the great crush they had very little opportunity to see the negro until the heat forced the crowd to widen the circle and the flames leaped over him.

The railroads brought crowds of people to Longview Junction, where they boarded the Texas and Pacific fast train, which does not ordinarily stop at Lansing. The engineer was forced at the point of a Winchester to stop at the scene of the lynching and the mob disembarked.

SUIT FOR RIVER FRONT.

Claimed Railroads Have Stolen Valuable Chicago Real Estate.

Chicago, May 23.—Five hundred thousand dollars' worth of Chicago river frontage has been stolen from the state, according to a bill filed in the circuit court by Attorney General H. J. Hamlin.

In the suit brought by the state the railroads, the Burlington, the Alton and the St. Paul railroads are said to be occupying illegally made lands and the court is asked to oust them. It also is demanded that the defendant railroad companies restore the river to its original width of 195 feet, which, if the state succeeds in its suit, will mean that the railroads not only must relinquish claim to the valuable frontage, but that they must expend a big sum in clearing away the made lands which they are occupying. The land in question extends from Adams to Van Buren streets and has an average width of 95 feet. It is occupied by tracks, docks and tenement houses.

SENATOR HOAR SPEAKS.

A Notable Contribution to the Philippine Discussion.

Washington, May 23.—A notable contribution to the discussion of the Philippine question was made in the senate by Mr. Hoar of Massachusetts. His views on the subject are well understood, but his expression of them was profoundly interesting and even impressive. When the venerable senator began to speak every senator at the Capitol was in his seat and for the two hours and a half his address consumed he was accorded the most careful attention not only by his colleagues on the floor, but also by the people in the thronged galleries.

Mr. Hoar confined himself closely to his manuscript. He denounced the attitude of the government in the Philippines as one of the most wicked and foolish chapters in American history. He urged that the United States should withdraw from the Philippines and permit the people there to erect their own government, as had been done in Cuba. He sharply arraigned General Funston for the methods he pursued in the capture of Aguinaldo, and intimated strongly that had the senate been aware of the facts Funston might not have been confirmed in his recent promotion. He hoped that, as the irrevocable step had not been taken by the United States, better counsels would yet prevail and that this government would leave the Philippines.

Spontaneous applause swept over the senate and the galleries at the conclusion of the speech. Such a demonstration is very unusual on the floor of the senate. So pronounced was it that the presiding officer called the attention of senators to the rule prohibiting any expression of approval or disapproval.

Mr. Teller of Colorado delivered a speech in the nature of a history of the legislative proceedings through which the new Cuban republic was erected.

CUBAN RECIPROCITY.

Republican Senators Still Conferring on the Question.

Washington, May 23.—The Republican senators are still conferring among themselves at each convenient opportunity on the question of Cuban reciprocity. A majority of the Republican members of the senate committee on Cuba have evinced a disposition to accept the house provision of a reduction of 20 per cent, with the provisions for the repeal of the differential duty on refined sugar omitted, but it is understood not to be their purpose to present any report to the senate on the question until they are assured of the support of a sufficient number of Republican senators to secure the passage of the measure recommended. There is a considerable contingent of Republicans from the beet sugar producing states who still hold out against any legislation along this line and who probably will continue to occupy that position.

GREAT SAVING OF LIFE.

Result of the Adoption of Safety Appliances by Railroads.

Washington, May 23.—E. A. Moseley, secretary of the interstate commerce commission, was before the house committee on interstate and foreign commerce in relation to the safety appliance bill regarding which the committee has been holding hearings for several weeks. Secretary Moseley stated that under the present safety appliance law a great saving of life had resulted. He believed that the present law should be amended.

Asked if the roads generally complied with the requests of the interstate commerce commission for the repair of cars found to be defective, he said he was glad to say there was only one instance where a road refused to comply with the notice of the commission, and that was a narrow gauge road not engaged in interstate business.

UNDERWOOD'S AMENDMENT.

House Discusses Educational Test for Immigrants.

Washington, May 23.—The house resumed discussion of the immigration bill. Almost the entire day was taken up with the amendment offered by Mr. Underwood (Ala.) requiring an educational test for immigrants to this country. It was adopted.

The house disagreed to the amendments of the senate to the omnibus public building bill and it was sent to conference.

An amendment to the rules was adopted requiring that conference reports should be printed in The Congressional Record before being presented to the house.

ADOPTS THE REPORT.

Presbyterian General Assembly Approves Creed Revision.

New York, May 23.—The general assembly of the Presbyterian church has adopted the report of the committee on creed revision making changes in the Confession of Faith. This action, which was practically unanimous, was taken with little or no debate. But two delegates voted against accepting the report. The supplementary statement was adopted by a unanimous vote. The changes proposed will now go to the various presbyteries for ratification.

Assents to the Extension.

London, May 23.—The Copenhagen correspondent of The Morning Post says that King Christian has assented to the extension for one year, namely, until July 24, 1903, of the time allowed for the ratification of the treaty for the sale to the United States of the Danish West Indies, which, according to The Politiken of Copenhagen, was proposed by John Hay, the United States secretary of state.

FLIGHT THE SOLE IDEA

INHABITANTS OF MARTINIQUE
FRANTIC TO LEAVE THE
ISLAND.

MANY HAVE BECOME INSANE

Some of Them Throw Themselves Into the Sea Rather Than Remain on the Doomed Spot—Some of the People Are Isolated and Assistance Cannot Reach Them—Vague Rumors Afloat of Further Disasters.

Paris, May 23.—A dispatch from Fort de France, Martinique, published in Le Journal, says the sole idea of the inhabitants is flight, that many of them have become insane and some of the people threw themselves into the sea. The population of the Grand Riviere district is isolated and assistance cannot reach them. In conclusion Le Journal's correspondent says there are vague rumors at Fort de France of further disasters.

Fort de France, Island of Martinique, May 23.—The recent rains of ashes and volcanic rocks, weighing as much as 75 grammes, which have fallen here, caused so much consternation among the inhabitants of Fort de France that those who have not left that city are anxious to do so, and large numbers are emigrating to the island of Guadeloupe, where, it is now estimated here, 1,200 people from Martinique have already sought shelter.

During her last exploring trip about the island the French cruiser Suchet, which did not stop at St. Pierre, noticed that all the formerly cultivated land between Grand Viviere and Marigot has been completely destroyed. The inhabitants of those towns have suffered and are still suffering a great deal, but they have not yet determined to abandon these localities, and efforts are being made to supply them with provisions.

The Suchet also reports that as she approached the point of the land where the land was in a better state of preservation, especially between Macouba and Lorraine, a shower of stones and sulphur caused those of the population of Morne Rouge, who had remained there, to hastily evacuate that place.

For a time some apprehension was felt regarding the detachment of French troops quartered at Le Carbet, but there has been no loss of life among them, according to the most recent reports.

The French gunboat Joffroy took on board about 150 of the inhabitants of the neighborhood of Le Carbet. It is estimated that about 3,000 persons will by night time have left Fort de France for the extreme southern part of the island.

Prince Henry Snubs Germans.

London, May 23.—General surprise has been caused by a slight which Prince Henry of Prussia is alleged to have offered the Germans of Dublin, who had prepared an address of welcome to him on his recent visit to that city. The chief of staff notified the delegates that the address could not be received by the prince personally, adding that they were welcome, however, to leave the document on board the flagship. The Germans then declined to take the address on board the warship and expressed regret at the prince's decision.

TEXAS NEGRO LYNCHED

DUDLEY MORGAN BURNED AT
THE STAKE AT LANSING
FOR ASSAULT.

MOB TAKES ITS OWN TIME

The Wretch Is Tortured in a Slow and
Painful Manner and Not Until He
Becomes Unconscious Is the Fire
Started—Husband of His Victim the
One to Apply the Match—Portions
of the Remains Carried Off as Relics.

Longview, Tex., May 23.—A man
hunt which had been in progress since
last Saturday ended during the day in
the burning at the stake of Dudley
Morgan, colored, who assaulted Mrs.
McKee, wife of a Texas and Pacific
section foreman, at Lansing, Tex.
When it was learned that the negro
had been captured and was being
taken to Lansing for identification the
excitement of the people knew no
bounds. By 11 a. m. great throngs
had gathered at the Lansing switch
and arrangements were made to burn
the negro. Just before 11 o'clock the
train bearing the prisoner and his cap-
tors arrived in Marshall and was met
by a great crowd of people. Many
more boarded the train at Hallville
and when it arrived at Lansing every
available place on it was occupied.
Waiting at Lansing was another large
crowd from Longview and the sur-
rounding country.

The negro was not taken from the
train on the side where the crowd
was and when the engineer started to
pull out several Winchesters were
levelled at him and others of the train
crew and they were threatened with
death. The prisoner was identified by
Mrs. McKee and several negroes who
worked on the section with Morgan.
Mrs. McKee said they had the right
man and the negro was escorted by
about 200 men armed with Winches-
ters to the place of execution. As he
was chained to the stake he made a
statement in which he implicated an-
other negro named Franklin Heard,
saying Heard was to get part of the
money which was to be stolen.

Morgan confessed to having com-
mitted the crime and after he had been
securely chained to the stake or rail,
with his hands and legs free, the mem-
bers of the mob began to take rail-
road ties from a fire already started
and burn out his eyes. They then held
the redhot and burning timbers to his
neck, and, after burning his clothes
off, to other parts of his body. The
negro screamed in agony. He was

Tortured in a Slow and Painful Manner
with the crowd clamoring continually
for a slow death, and the man, writ-
ing and groaning, begged piteously to
be shot. Mrs. McKee was brought to
the scene in a carriage, accompanied
by four other women, and an effort was
made to get the carriage close enough
for her to see the negro. The crowd
was so dense, however, that this was
impossible.

Persons held each other on their
shoulders, taking turns about looking
at the awful sight. The negro's head
finally dropped and the ties were piled
around and over him. In half an hour
only the trunk of his body remained.
As soon as the heat would permit the
crowd with long sticks began a grev-
some search for relics. Parts of his
skull and body were gathered up by
some and carried away. As the fire
died down the crowd took the two men
who first caught the negro and held
them over their heads, while they held
their Winchesters in their hands and
were photographed.

From the time the first fire was ap-
plied to the negro's body until the
dying embers alone were left the
crowd yelled and cheered for the men
who had chased the negro.

Section Foreman McKee, husband of
the woman assaulted, applied the
match to the fagots. Many women
were present from the surrounding
country, but owing to the great crush
they had very little opportunity to see
the negro until the heat forced the
crowd to widen the circle and the
flames leaped over him.

The railroads brought crowds of
people to Longview Junction, where
they boarded the Texas and Pacific
fast train, which does not ordinarily
stop at Lansing. The engineer was
forced at the point of a Winchester to
stop at the scene of the lynching and
the mob disembarked.

SUIT FOR RIVER FRONT.

Claimed Railroads Have Stolen Valu-
able Chicago Real Estate.

Chicago, May 23.—Five hundred
thousand dollars' worth of Chicago
river frontage has been stolen from
the state, according to a bill filed in the
circuit court by Attorney General H.
J. Hamlin.

In the suit brought by the state the
Pennsylvania, the Burlington, the Al-
ton and the St. Paul railroads are said
to be occupying illegally made lands
and the court is asked to oust them.
It also is demanded that the defendant
railroad companies restore the river to
its original width of 195 feet, which,
if the state succeeds in its suit, will
mean that the railroads not only must
relinquish claim to the valuable front-
age, but that they must expend a big
sum in clearing away the made lands
in question which extends from Adams
to Van Buren streets and has an average
width of 55 feet. It is occupied by
tracks, docks and tenement houses.

SENATOR HOAR SPEAKS.

A Notable Contribution to the Philip-
pine Discussion.

Washington, May 23.—A notable
contribution to the discussion of the
Philippine question was made in the
senate by Mr. Hoar of Massachusetts.
His views on the subject are well un-
derstood, but his expression of them
was profoundly interesting and even
impressive. When the venerable sen-
ator began to speak every senator at
the Capitol was in his seat and for the
two hours and a half his address con-
sumed he was accorded the most care-
ful attention not only by his colleagues
on the floor, but also by the people in
the thronged galleries.

Mr. Hoar confined himself closely to
his manuscript. He denounced the at-
titude of the government in the Phil-
ippines as one of the most wicked and
foolish chapters in American history.
He urged that the United States should
withdraw from the Philippines and
permit the people there to erect their
own government, as had been done in
Cuba. He sharply arraigned General
Funston for the methods he pursued
in the capture of Aguinaldo, and in-
timated strongly that had the senate
been aware of the facts Funston might
not have been confirmed in his recent
promotion. He hoped that, as the ir-
revocable step had not been taken by
the United States, better counsels
would yet prevail and that this govern-
ment would leave the Philippines.

Spontaneous applause swept over
the senate and the galleries at the con-
clusion of the speech. Such a demon-
stration is very unusual on the floor of
the senate. So pronounced was it that
the presiding officer called the atten-
tion of senators to the rule prohib-
iting any expression of approval or dis-
approval.

Mr. Teller of Colorado delivered a
speech in the nature of a history of
the legislative proceedings through
which the new Cuban republic was
erected.

CUBAN RECIPROCITY.

Republican Senators Still Conferring
on the Question.

Washington, May 23.—The Repub-
lican senators are still conferring
among themselves at each convenient
opportunity on the question of Cuban
reciprocity. A majority of the Re-
publican members of the senate com-
mittee on Cuba have evinced a dispo-
sition to accept the house provision of
a reduction of 20 per cent, with the
provisions for the repeal of the differ-
ential duty on refined sugar omitted,
but it is understood not to be their
purpose to present any report to the
senate on the question until they are
assured of the support of a sufficient
number of Republican senators to se-
cure the passage of the measure rec-
ommended. There is a considerable
contingent of Republicans from the
beet sugar producing states who still
hold out against any legislation along
this line and who probably will con-
tinue to occupy that position.

GREAT SAVING OF LIFE.

Result of the Adoption of Safety Ap-
pliances by Railroads.

Washington, May 23.—E. A. Mose-
ley, secretary of the interstate com-
merce commission, was before the
house committee on interstate and
foreign commerce in relation to the
safety appliance bill regarding which
the committee has been holding hear-
ings for several weeks. Secretary
Moseley stated that under the present
safety appliance law a great saving of
life had resulted. He believed that
the present law should be amended.

Asked if the roads generally com-
plied with the requests of the inter-
state commerce commission for the
repair of cars found to be defective,
he said he was glad to say there was
only one instance where a road re-
fused to comply with the notice of the
commission, and that was a narrow
gauge road not engaged in interstate
business.

UNDERWOOD'S AMENDMENT.

House Discusses Educational Test for
Immigrants.

Washington, May 23.—The house re-
sumed discussion of the immigration
bill. Almost the entire day was taken
up with the amendment offered by Mr.
Underwood (Ala.) requiring an educa-
tional test for immigrants to this coun-
try. It was adopted.

The house disagreed to the amend-
ments of the senate to the omnibus
public building bill and it was sent to
conference.

An amendment to the rules was
adopted requiring that conference re-
ports should be printed in The Con-
gressional Record before being pre-
sented to the house.

ADOPTS THE REPORT.

Presbyterian General Assembly Ap-
proves Creed Revision.

New York, May 23.—The general
assembly of the Presbyterian church
has adopted the report of the com-
mittee on creed revision making changes
in the Confession of Faith. This ac-
tion, which was practically unanimous,
was taken with little or no debate.
But two delegates voted against ac-
cepting the report. The supplementary
statement was adopted by a unani-
mous vote. The changes proposed
will now go to the various presbyteries
for ratification.

Assents to the Extension.

London, May 23.—The Copenhagen
correspondent of The Morning Post
says that King Christian has assented
to the extension for one year, namely,
until July 24, 1903, of the time allowed
for the ratification of the treaty for
the sale to the United States of the
Danish West Indies, which, according
to The Politiken of Copenhagen, was
proposed by John Hay, the United
States secretary of state.

MANY HAVE BECOME INSANE

Some of Them Throw Themselves into
the Sea Rather Than Remain on the
Doomed Spot—Some of the People
Are Isolated and Assistance Cannot

of Further Disasters.

Paris, May 23.—A dispatch from
Fort de France, Martinique, published
in Le Journal, says the sole idea of the
inhabitants is flight, that many of
them have become insane and some of
the people threw themselves into the
sea. The population of the Grand
Riviere district is isolated and assistance
cannot reach them. In conclu-
sion Le Journal's correspondent says
there are vague rumors at Fort de
France of further disasters.

Fort de France, Island of Martin-
ique, May 23.—The recent rains of
ashes and volcanic rocks, weighing as
much as 75 grammes, which have fallen
here, caused so much consternation
among the inhabitants of Fort de
France that those who have not left
that city are anxious to do so, and
large numbers are emigrating to the
island of Guadeloupe, where, it is now
estimated here, 1,200 people from Mar-
tinique have already sought shelter.

During her last exploring trip about
the island the French cruiser Suchet,
which did not stop at St. Pierre, no-
ticed that all the formerly cultivated
land between Grand Viviere and Mari-
got has been completely destroyed. The
inhabitants of those towns have
suffered and are still suffering a great
deal, but they have not yet determined
to abandon these localities, and efforts
are being made to supply them with
provisions.

The Suchet also reports that as she
approached the point of the land
where the land was in a better state of
preservation, especially between Ma-
couba and Lorraine, a shower of
stones and sulphur caused those of
the population of Morne Rouge, who
had remained there, to hastily evacu-
ate that place.

For a time some apprehension was
felt regarding the detachment of
French troops quartered at Le Carbet,
but there has been no loss of life
among them, according to the most re-
cent reports.

The French gunboat Jeffroy took on
board about 150 of the inhabitants of
the neighborhood of Le Carbet. It is
estimated that about 3,000 persons
will by night time have left Fort de
France for the extreme southern part
of the island.

Prince Henry Snubs Germans.

London, May 23.—General surprise
has been caused by a slight which
Prince Henry of Prussia is alleged to
have offered the Germans of Dublin,
who had prepared an address of wel-
come to him on his recent visit to that
city. The chief of staff notified the
delegates that the address could not
be received by the prince personally,
adding that they were welcome, how-
ever, to leave the document on board
the flagship. The Germans then de-
clined to take the address on board
the warship and expressed regret at
the prince's decision.

FRIDAY, MAY 23, 1902.

Weather.

Generally fair tonight and Saturday. Slightly cooler.

THE Swedish Baptists of Iowa in convention at Sioux City have voted to forbid any of their ministers from belonging to secret societies.

THE Chicago & Northwestern railroad has issued a new set of rules for its employes prohibiting the use of tobacco or whisky on or off duty. This is what may be called a total abstinence railroad.

THE Minneapolis Journal is informed that the democratic legislative slate in this district has been decided on and is C. E. Vassaly, of Little Falls, for senator, and Dr. Werner Hemstead and J. M. Elder, of this city for representatives.

LOCAL NEWS NOTES.

Hon. A. F. Ferris returned from St. Paul this afternoon.

J. L. Smith left for his home in Minneapolis this afternoon.

Judge Holden came down from Pequot this morning on business.

Ex-Mayor Kinkle, of Walker, returned from Pillager this afternoon.

Mrs. Coppersmith and children left today for the Twin Cities for a few days' visit.

J. E. Goodman, inspector of engines of the Northern Pacific, is in the city today.

A. L. Cole, the Walker-Motley merchant, was in the city this afternoon on business.

Manager Walker, of the Brainerd Telephone Exchange, left today for Aitkin on business.

E. H. Jerrard returned from the Twin cities this afternoon and left for his home in Bemidji.

Mrs. F. R. Fisher, of Morris, is in the city. She attended the wedding of her brother-in-law and will visit with relatives.

Mrs. Batcheller, mother of Dr. Batcheller, who has been visiting in the city for sometime, left for her home at Madelia this afternoon.

Dr. Adams, of St. Paul, superintendent of missions in Minnesota for the Presbyterian church, was in the city today leaving this afternoon for Minneapolis.

Chas. McLain, who has held the position as bill clerk in the freight office of the Northern Pacific in this city, has resigned to engage in other business.

F. I. Hitt has returned from his farm and has taken his old position in the Northern Pacific Express Co's office in this city. Driver Snell has reassumed his old position.

Mrs. Fisher was brought in from Fort Ripley this afternoon by Dr. Thabes and removed to St. Joseph's hospital, where an operation will probably be performed for stomach trouble.

Mr. and Mrs. J. A. Holden are in the city visiting old friends. Some twelve years ago they were residents of this city when Mr. Holden was connected with the Northern Pacific. Their home is now in Oklahoma.

Street Commissioner Weitzel has been engaged by A. A. White to assist in getting the park ready by a week from today. The grounds have all been cleared of the trees and the work is being pushed with all possible speed.

A week from today will be the last day of this school year. A week from tomorrow the examinations under the state law will be held at the Washington school building and those who are to participate are getting in shape.

F. Ceyborski, a former resident of West Duluth, who returned recently from Brainerd, Minn., yesterday purchased from William J. Chestock the one story building at 222 Central avenue and will open a tailor shop there. While in Brainerd, Mr. Ceyborski conducted a tailoring business, but some time ago he was burned out and lost everything in his shop.—Duluth News-Tribune.

Mrs. C. W. McMullen, after visiting for several days with her sister, Mrs. F. W. Wieland, left today with her little son for San Bernardino, Cal., where they will make their home in the future, Mr. McMullen having preceded them sometime ago.

A warrant was sworn out for the arrest of J. W. Fuller this morning. He is charged with violating the bicycle ordinance. He is a herder and it is claimed that he has been driving cows over the paths. He plead not guilty and his hearing was continued.

A clod hopper club was organized at the home of Mrs. J. N. Waldrop Thursday last with eleven charter members. An introduction to the different members of the club is the only initiatory ceremonies. The afternoon was spent in sewing rags, and dinner was served at six.

G. F. Stevens, surveyor general of logs in the Duluth district, who had been ill of Bright's disease, died this morning. He was well known in the lumber and railway circles of the northwest and was popular there. He was 35 years old and was appointed surveyor general by Governor Van Sant.

Married at the parsonage by Rev. G. F. Morton Thursday afternoon, Miss Gertrude Dugan and Mr. Louis Holsapple, in the presence of intimate friends. The young couple are well and favorably known here, and as they go to make their home at Daggett Brook, many friends wish them real success and true happiness.

The canvassing board of Cass county has just completed the canvass of the votes cast at the late special election, and the result shows that the two propositions submitted to the people carried by good majorities. The questions voted on were: To bond the county for \$30,000 to build a new court house at the county seat and to bond for \$30,000 for roads and bridges.

London Papers Believe That Peace Is Practically Assured.

London, May 23.—The Daily Chronicle claims authority to say that peace in South Africa is practically assured. This is also the general impression with the other newspapers and the public, although the former do not go so far as the assertion published by The Chronicle.

However, the government departments decline to give any information on the matter. It is understood that important dispatches have been received from Lord Milner, the British high commissioner in South Africa, and from Lord Kitchener, but nothing can be ascertained as to the nature of the contents of these dispatches.

The fact that the cabinet was summoned so quickly after the arrival of the delegates at Pretoria is regarded as a good augury, as the discussions at Pretoria could only have commenced Monday.

A dispatch to The Daily Telegraph from Pretoria says that the Boers are seeking permission to retain their horses.

Cabling from Pretoria under date of Wednesday, May 21, the correspondent of The Times says the Boer meeting there is not necessarily final, and it is believed the Boer delegates, after obtaining information on certain points, will return to Vereeniging.

The Daily Mail says it understands that owing to the protracted haggling of the Boer leaders at Pretoria, Great Britain has presented them with what is practically an ultimatum, their reply to which is awaited and which it is expected they will accept.

Dispatches received here from Pretoria, continues The Daily Mail, say that during the stay of the Boer delegates there the conference will continue at Vereeniging and that a majority of those present at the conference are trying to persuade the recalcitrant minority into a unanimous vote. In the meantime the British columns have been resting and refitting and are now all ready for immediate action. The Daily Mail says it believes the delegates at Pretoria will dispatch the ultimatum to the conference at Vereeniging for its consideration.

Coal Washeries Close Down.

Seranton, Pa., May 23.—All of the 19 washeries in this region that had continued working after the strike was declared were closed down during the day and now there is no coal either being mined or washed. The companies state this action was taken to avoid a repetition of the violent scenes of the last few days at Olyphant, Cork Lane and Smithville.

Lightning Kills Two.

Toledo, O., May 23.—A terrific electrical and wind storm passed over Northwestern Ohio during the afternoon. Two persons were killed, one fatally injured and many others less seriously injured. Much damage was done in the oil fields. The dead are Henry Jualman, a farmhand at Danbury, and Isadore Metzger, an oil man at Delphos.

SURVIVOR OF COMPANY B.

Thomas Parsley, a Veteran of the Civil War Tells of His Experience With the Old Fifth Regiment.

Thos. Parsley, of South Dakota, en route to northern Minnesota was in the city last night. Mr. Parsley is a veteran of the civil war and one of the few survivors of Co. "B." of the 5th Reg't of Minn. Volunteers which was so nearly annihilated at the ferry of the Minn. River near the site of the present city of Redwood Falls on that fateful 18th of Aug. 1862, when the Sioux of the northwest, under their war chief, "Little Crow," made the attempt to wrest from the whites all the territory west of the Missouri River. Mr. Parsley was 23 years of age at the time of the fight with the Indians at the ferry and he told the story of that terrible time when Captain Marsh, himself only 28 years of age, with interpreter Quinn, left Fort Ridgley for the scene of the reported outbreak with 46 men, only to be ambushed by the wily Sioux, and one-half the number, left dead in the dense growth of weeds and brush in the river bottom.

In this engagement John Parsley, a brother of Thos., was one of the victims and his name appears on the monument erected to their memory at Ft. Ridgley, where all the bodies were buried some weeks later. The reg't. took an active part in the gallant defense of the fort on the 22nd of the same month and one company of the regiment was instrumental in preventing the outbreak of the Chippewas, being stationed at Fort Ripley at the time. Part of the reg't., went south in May, 1862, and later after the subjugation of the Indians, the gallant 5th Minn., took part in some of the most brilliant engagements of the war.

CORNELL UNIVERSITY LANDS.

Over Fifty Thousand Acres in Wisconsin Disposed Of.

Chippewa Falls, Wis., May 21.—James L. Gates has closed a deal for the purchase of all the Cornell university lands remaining in Wisconsin, aggregating 56,000 acres, located principally in Chippewa, Gates, Sawyer, Price and Taylor counties. The price paid was \$250,000. The transaction was closed at Ithaca, N. Y., and winds up a remarkable career of the Cornell University Land company that existed over a quarter of a century. In 1863 Ezra Cornell gave \$250,000 to Cornell university as an endowment fund, which, invested in lands at 50 cents per acre, bought 500,000 acres of selected lands located in Wisconsin, which proved valuable, and this remarkable investment of the university has since then realized over \$13,000,000 profit.

END OF MERGER SUIT.

It is Reported That Federal Officers Have Agreed to Stop the Case.

Chicago, May 21.—An amicable understanding is about to be effected between the federal government and the Northern Securities company. For some time friends of J. P. Morgan and J. J. Hill have been importuning President Roosevelt to have the suit against the company called off. From one of the stockholders of the Northern Securities company it has been learned by the federal officers that if certain modifications in the company's financial construction be made, the attorney general would consider withdrawing the government's suit against the company.

South Dakota Bank Robbed.

Armour, S. D., May 21.—The bank of Harrison, a little country town 16 miles northwest of this place, was robbed during the night and the robbers are supposed to be professionals. The safe is a complete wreck. Only \$200 in money was taken as the bank had shipped most of its currency. Notes and other valuable papers were spoiled by the wrecking of the safe.

TROUBLE OVER LICENSE AGAIN.

Morris & Rowe Have Some Difficulty to Get a License and They Interview the Alderman.

The same old difficulty regarding the issuing of license to circuses and shows came up today again, and for a time it was a quandry whether or not Norris & Rowe would show here at all. It seems that City Clerk Low issued a license to the advance man for \$15, the price usually charged for shows of this character, but the council at the last meeting decided that it was a circus, and that the company should pay a license of \$100 as provided for any other class of circus. So when City Clerk Low was asked to give them the license today which the advance man had provided for—\$15—he would not do it. The company then went to six of the aldermen and the mayor and they all endorsed the license and the show was put on.

The same old difficulty regarding the issuing of license to circuses and shows came up today again, and for a time it was a quandry whether or not Morris & Rowe would show here at all. It seems that City Clerk Low issued a license to the advance man for \$15, the price usually charged for shows of this character, but the council at the last meeting decided that it was a circus, and that the company should pay a license of \$100 as provided for any other class of circus. So when City Clerk Low was asked to give them the license today which the advance man had provided for—\$15—he would not do it. The company then went to six of the aldermen and the mayor and they all endorsed the license and the show was put on.

WIRE GRASS CONCERN IS GETTING BUSY

Many Improvements Being Made
At Backus, Where they Have
A Large Meadow.

A LARGE QUANTITY OF GRASS

Will be Shipped to the Factory at
St. Paul this Season from
Their Meadows.

Supt. Teasdale, of the American Wire Grass Company, of St. Paul, was in the city yesterday afternoon enroute home from Backus, where he had been in the interests of the concern. They purchased last season some nine thousand acres of meadow land just west of Backus, or as the new townsite is now known, Koopville, and Mr. Teasdale has been up there now making preparations for some extensive improvements. A large warehouse 200 by 400 feet is being erected and a road is being graded from the village to the meadow lands. The land is also being ditched and put in condition for the purpose for which it was purchased.

Mr. Teasdale stated yesterday that the grass there was the best that can be secured for the purpose, and that with the proper care they will be able to get a large quantity for their factory every year. They expect to take off some 9,000 tons this year alone.

BIG SALE OF LOGS.

Bonness & Howe Sell Another Batch of
30,000,000 Feet of Logs to
Down River Firm.

J. J. Howe of the firm of Bonness & Howe is in Minneapolis, where he has negotiated the sale of 30,000,000 feet of logs to a down river firm. This is the second sale made by this firm this year. Some two weeks ago the firm sold 20,000,000 feet to a firm in Minneapolis.

They are getting along swimmingly with their drive since the high water and it will be a great summer in this line of work.

Shipment of White Pine.

White pine lumber continues to increase in statistical strength, notwithstanding the fact that the new sawing season is a month old and the time will soon be here when supplies of dry lumber should be fairly adequate to meet the requirements of the trade, says the Minneapolis Journal.

Statistics showing the shipments from the Mississippi and Wisconsin valleys, including seventy-two of the largest firms, for the month of April, show that there was a very little decrease in the total volume of white pine business as compared with the corresponding month last year.

Total shipments in the two districts for April this year were 202,984,112 feet, as compared with 219,379,896 last year, a decrease for 1902 of 16,431,784 feet, or 7.5 per cent. Of this falling off, 10.7 per cent occurred in the Wisconsin valley district and only 6.5 per cent in the Mississippi valley. Relatively the Mississippi valley district makes a better showing than the Wisconsin valley, owing to the fact that the bulk of the business is transacted in this district. Of the total shipments for April 159,609,112 feet were shipped from the Mississippi valley.

J. F. Cox, a brakeman for the Minnesota & International, fell into the hands of real genuine footpads this morning on his way home from the M. & I. office near the mill, and was rather severely dealt with. He was walking along the bicycle path through the thicket near First Ave. in East Brainerd not far from Kindred street, and all of a sudden without the slightest warning he was hit in the back of the head and rendered unconscious. He thinks that there were three men although he is not positive about this. The instrument which was used to render him powerless he thinks was a lead pipe or a piece of hose filled with sand.

Cox was two hours in an unconscious condition and today is very sore. After he had become unconscious both his pants pockets were ripped open with a knife and all the money he had, some \$24, was taken from him, and a gold watch which was valued at about \$50.

When the holdup occurred it was about daybreak and he says he thinks that the men were laying for him and were hidden in the brush, as they sneaked up behind him without warning.

CULVERT WASHED OUT.

One of the Most Deplorable Results of the
Big Rain Occurred at Buffalo
Creek.

Commissioner Paine returned from a trip through the country. He went out to look over the losses caused by the rain a few nights ago and in some instances he found a bad state of affairs. The worst perhaps was at the Buffalo creek culvert on the Crow Wing road some three miles from the city. This is a very large culvert, about a five foot stand, and is about thirty feet long. Nearly two-thirds of this is washed away, and the damage will run into the hundreds. A new pile span bridge will be erected at once to take the place of the old culvert.

From the indications around the place after the culvert was washed that it was a very poor job as the foundation stones seem to have stood all right while the balance of the other structure is all washed away.

Bids for Bridge.

The board of county commissioners will receive bids until 2 p. m. Monday, May 26th, at the office of the Palace Hotel, to construct a bridge across Buffalo creek on the Crow Wing road. Bridge to contain one 30 foot span and two 12 foot spans. For further particulars apply to the undersigned.

Fine Dining Car Service.

The dining car service on the Milwaukee road is proverbially fine. No better meal can be obtained anywhere than on its dining cars between Milwaukee and Chicago.

Breakfast is served on its celebrated passenger coach lighting by electricity Pioneer Limited into Chicago every morning on the a la carte plan—you pay for what you order.

The Pioneer Limited between St. Paul, Minneapolis and Chicago (passing through Milwaukee) is the famous train of the world. Berths in its private compartment sleeping cars and sixteen section sleepers are longer, wider and higher than those of any other sleeper in America.

A Nearly Fatal Runaway

Started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill., which defied doctors and all remedies for four years. Then Bucklen's Arnica Salve cured him. Just as good for Boils, Burns, Bruises, Cuts, Corns, Scalds, Skin Eruptions and Piles. 25c at McFadden Drug Co., H. P. Dunn & Co., drug stores.

A Doctor's Bad Plight.

"Two years ago, as a result of a severe cold, I lost my voice," writes Dr. M. L. Scarbrough, of Hebron, Ohio, "then began an obstinate cough. Every remedy known to me as a practicing physician for 35 years, failed, and I daily grew worse. Being urged to try Dr. King's New Discovery for Consumption, Coughs and Colds, I found quick relief, and for the last ten days I have felt better than for two years." Positively guaranteed for Throat and Lung troubles by McFadden Drug Co., H. P. Dunn & Co. 50c and \$1.00. Trial bottles free.

Now is the Time to Act.

I have several nice houses to sell, running from \$400 to \$1,500, for a cash payment of from \$50 to \$200. You can choose your own payments for the balance. Of course, the more you pay the sooner you get through. No one need hesitate. After the first payment, if you can pay rent, you can pay for the home.

CAUTION—Don't make the mistake of supposing that there is any of the old uncertain building and loan plan about this, as there is not. They are no more alike than the old Red River ox-cart is like the "North Coast Limited." All contracts are as definite as it is possible to make them. You know to a cent what you will pay, and to a day when you will get through paying. Full particulars on request. Call day or evening.

ATTACH STOCK OF GOODS.

The Firm of Cleary, McGinnis & Hemstead Attaches the M. & L. Co's Stock
Of Goods at Little Falls.

Sheriff Tanner has taken possession of the M. & L. Grocery company's stock in the Hall building, under an attachment secured by Cleary, McGinnis & Hemstead, the Brainerd wholesale grocery house, for a claim of \$277 for goods sold the local firm. The members of the M. & L. company are L. C. Mahler and Fred Lang, and they have been in the grocery business in the Hall building on Second street since October of last year.

A. K. Hall has a bill of sale of the stock of goods, dated May 7, 1902. It is understood that he will take legal steps to secure possession of the goods.

J. F. McGinnis, of the Brainerd firm is in the city, and Fred Gravel is assisting in taking an invoice.

E. P. Adams represents the wholesale house that is trying to recover pay for the goods sold the M. & L. people.—Transcript.

CULVERT WASHED OUT.

One of the Most Deplorable Results of the
Big Rain Occured at Buffalo
Creek.

Commissioner Paine returned from a trip through the country. He went out to look over the losses caused by the rain a few nights ago and in some instances he found a bad state of affairs. The worst perhaps was at the Buffalo creek culvert on the Crow Wing road some three miles from the city. This is a very large culvert, about a five foot stand, and is about thirty feet long. Nearly two-thirds of this is washed away, and the damage will run into the hundreds. A new pile span bridge will be erected at once to take the place of the old culvert.

From the indications around the place after the culvert was washed that it was a very poor job as the foundation stones seem to have stood alright while the balance of the other structure is all washed away.

Bids for Bridge.

The board of county commissioners will receive bids until 2 p. m. Monday, May 26th, at the office of the Palace Hotel, to construct a bridge across Buffalo creek on the Crow Wing road. Bridge to contain one 30 foot span and two 12 foot spans. For further particulars apply to the undersigned.

Secure a Home.

I have some 5 acre farms within 12 minutes walk of the N. P. shops with houses thereon and ground plowed ready to plant, for sale on easy terms. I have some larger pieces and lots.

A person can pay for a house with the money he uses to pay for rent. Call and see if anything I have and terms of payment suit you.

GUESTS OF THE NATION

PRESIDENT ROOSEVELT RE-
CEIVES THE ROCHAMBEAU
MISSION.

A VISIT TO MOUNT VERNON

The Distinguished Party Places a
Wreath on the Tomb of Washington
and Near It Plants a Tree Taken
From Yorktown Battlefield—A State
Dinner Is Given in Their Honor at
the White House.

Washington, May 23.—Surrounded
by the members of his cabinet and by
officials high in all the branches of
the government, President Roosevelt
received as the guests of the nation
the distinguished Frenchmen sent by
President Loubet to take part in the
Rochambeau exercises. The arrival
in the city of the brilliantly uniformed
French army and navy officers and
their escort through Pennsylvania
avenue by a troop of United States
cavalrymen gave picturesque interest
to the occasion, and to this was added
the international significance of an ex-
tremely cordial exchange of greetings
between the representatives of the two
nations. After the president's recep-
tion at the White House the French
visitors exchanged calls with mem-
bers of the cabinet and Lieutenant
General Miles and Admiral Dewey. In
the afternoon they journeyed to Mount
Vernon, where General Brugere of the
French army placed a laurel wreath
on the tomb of Washington and Count
de Rochambeau planted a tree taken
from the battleground of Yorktown,
where Washington, Rochambeau and
Lafayette were companions in arms.
The trip down the river was made on
the United States naval yacht Sylph,
with Ambassador and Mme. Cambon
and Secretary Pierce, representing the
president, as hosts, while the guests
included the entire French party with
their ladies.

Honor Washington's Memory.

At Mount Vernon the party proceed-
ed first to the tomb of Washington,
where the heavy iron bars were re-
moved in order to admit M. Cambon,
General Brugere, Vice Admiral Four-
nier and a few other distinguished
officers. General Brugere placed the
wreath on the tomb, which was com-
pletely covered by the great sheaves
of laurel. Just across from the tomb
a vigorous young maple, taken from
the Yorktown battlefield, was planted
by Count de Rochambeau. As he laid
down the spade General Brugere and
all the other officers took turn in cast-
ing earth upon the new planted tree.

Later the party visited the old man-
sion and saw the many relics with
which the name of Washington, La-
fayette and Rochambeau are identi-
fied.
A state dinner was given at the
White House by President and Miss
Roosevelt in honor of the distinguished
visitors from France. The company
invited to meet the visitors was a
thoroughly representative one, includ-
ing the members of the cabinet, sen-
ators and representatives in congress
and high officials of the army and
navy.

During the dinner President Roose-
velt proposed the toast, "To the pres-
ident of the French Republic and to
the People of France." Ambassador
Cambon gave as a toast, "The Pres-
ident of the United States," and made
a short, graceful speech. Secretary
May proposed as a toast, "The Mem-
bers of the Rochambeau Mission,"
General Brugere responding.

Will Man the Pumps at Any Cost.

Shamokin, Pa., May 23.—The Min-
eral Mining and Railroad company has
posted notices announcing that em-
ployes now on strike would be paid in
full Saturday. Individual operators
will also square up accounts with the
miners. Between \$250,000 and \$300,-
000 will be paid out to workmen be-
tween here and Mount Carmel by Sat-
urday night. Mine superintendents
say they will man the pumps at any
cost after June 2 if the firemen go on
strike.

TO THE HAGUE TRIBUNAL.

United States and Mexico Agree to
Submit the "Plus Claim."
Washington, May 23.—Secretary
Hay and Mr. Aspiroz, the Mexican
ambassador, have signed a convention
providing for the arbitration of the
famous "Plus claim," based on the
application of the Catholic church in
California for overdue interest on trust
funds in the custody of the American
government. The claim involves about
\$1,000,000 and is the first case to go
before The Hague tribunal in any
form. Under the terms of the agree-
ment each of the parties will select
two arbitrators and they will choose
another from the eligible list of The
Hague tribunal, who shall sit as um-
pire. It is expected that the treaty
will be ratified by the Mexican con-
gress, now in session, in time to per-
mit the arbitrators to meet in Sep-
tember next.

DIED VERY SUDDENLY.

Surveyor General Stevens of Duluth
Succumbs to Brights Disease.
Duluth, May 23.—G. Fred Stevens,
surveyor general of logs and lumber
for this district, died very suddenly
at his home here from an acute attack
of Brights disease. Mr. Stevens had
been very low for several days past,
but during the night and early morn-
ing his condition was so much im-
proved that it was believed the danger
was past. Deceased was 35 years of
age and is survived by a wife. For
several years he has been a prominent
lumber shipper and saw mill prop-
rietor. He took an active part in
the last gubernatorial campaign and
was rewarded for his efforts by ap-
pointment to the office he held at his
death.

SITUATION UNCHANGED.

Tenth Day of the Anthracite Miners'
Strike Passes Off Quietly.

Wilkesbarre, Pa., May 23.—The 10th
day of the anthracite coal miners' strike
passed off very quietly, not a single
incident developing which would
in any way tend to change the present
situation. Rumors were rife that
something was about to take place
that would alter the status quo condi-
tions of the negotiations, but these
were promptly denied by leaders of
both sides to the controversy.

Regarding the demands made by the
engineers, firemen and pumpmen, a
prominent labor official said that he
had received indirect information
which made him feel almost sure that
one of the big coal companies had de-
cided, or is about to decide, to grant
these men what they have asked for.
When the attention of the superintend-
ent of one of the largest companies in
the field was called to this he said:

"As far as I know, this is not true.
Speaking for our company, I can say
that a definite plan has not yet been
finally decided upon. We have two or
three ways in which to meet the latest
move of the union and we have 10
days' time to think the matter over."
President Mitchell kept close to his
office all day. He would say nothing
regarding the call for the special na-
tional convention which will meet in
Indianapolis probably three weeks
hence.

PREFERS HORSE RACING.

King Alfonso Would Like to Substitute
It for Bull Fighting.

Madrid, May 23.—Dr. J. L. M. Curry
and Mrs. Curry have left Madrid for
Paris, where Dr. Curry is to make a
speech at the Rochambeau banquet on
Saturday next. Dr. Curry is delighted
with the treatment which he received
throughout his stay here.
Mrs. Curry was so upset by the
scenes which she witnessed at the bull
fight that she was unable to attend the
Tattoo in the evening, but she had
previously had a farewell audience
with the queen mother and donated
1,000 pesetas to the free education
fund. The gift was highly appreciated
in official circles.

The king, speaking to a foreign dip-
lomat, asked him how he liked the
bull fight. The diplomat was obliged
to confess that it made a disagreeable
impression upon him.
"It is cruel," replied the king, "and
I do not like it myself. I would like
to introduce horse racing as a substi-
tute."

G. A. R. ENCAMPMENT ENDS.

Iowa Veterans Adjourn After Electing
Officers.

Des Moines, May 23.—The G. A. R.
encampment for the department of
Iowa adjourned after electing the fol-
lowing officers: John Lindt, Council
Bluffs, commander; N. S. Durgan,
Cresco, senior vice commander;
Joseph M. Allison, Fond du Lac, junior
vice commander; J. Amos Shaffer, Keokuk,
medical director; Rev. S. R. Per-
guson, Parkersburg, surgeon general.
There being no formal applications
for the next encampment the location
question was referred to the council
of administration. Cedar Rapids and
Mason City are mentioned, but neither
made any formal proposition. The en-
campment adopted numerous resolu-
tions, among them one favoring an an-
nuity for Clara Barton, one favoring a
graded pension system for all old sol-
diers above 55 years of age, and one
commending the Sons of Veterans' Na-
tional university at Mason City.

THE MANAGER RESIGNED.

Over Twelve Hundred Employees of a
Cigar Factory Strike.

Detroit, Mich., May 23.—Twelve
hundred girls and women and about
50 men employed in the Brown Bros.
cigar factory here, a branch of the
American Cigar company, went on a
strike because of the announcement
that John H. Brown, one of the former
proprietors of the factory, had resigned
as manager of the concern for the
American Cigar company. The fac-
tory is in the middle West. Some time
ago the American Cigar company directors
instructed Mr. Brown to reduce oper-
ating expenses and the employees be-
lieved their wages were to be cut after
Mr. Brown's successor was installed.

PACKERS GIVE ORDERS.

Agents Must Strictly Obey Every
Clause of the Injunction.

Chicago, May 23.—Agents of the
packing houses enjoined by Judge
Grosscup from conspiracy in restraint
of trade have been ordered to strictly
observe every clause of the injunction
in all their future transactions. A
personal letter, together with a
copy of the restraining order, was
mailed to each agent by the packer
who employs him. This move was
made on the advice of the attorneys of
the various firms. Each packer wrote
individually to his own agents.

To Favor American Built Ships.

Washington, May 23.—The house
committee on military affairs has or-
dered a favorable report on the bill
authorizing the secretary of war, in his
discretion, to favor American built
ships in the transportation of govern-
ment supplies to the Philippines across
the Pacific ocean, and to accept the
lowest and best bid offered, providing
such bid does not exceed by 10 per
cent the lowest bid offered for trans-
porting such supplies in foreign built
ships.

Wrecked the Butcher Shop.

New York, May 23.—Seven hundred
men, women and children attacked
the shop of a Norfolk street butcher.
The butcher had opened his store for
the sale of meat, disregarding the
edict of the East Side people that no
meat should be sold. The butcher re-
fused to obey the mob that ordered
him to close and before the police re-
sues could be summoned his place
was a wreck. Four arrests were made.

Salvation Army Congress.

New York, May 23.—The annual
congress of the Salvation Army is in
session here. Commander Booth Tuer-
ner announced that the commander-in-
chief, General William Booth, would
visit this country in October next.
Nearly 500 delegates from all parts of
the United States are attending the
congress.

SLIPPED INTO THE RIVER.

New Orleans Fire Department Loses
One of Its Engines.

New Orleans, May 23.—The steamer
John K. Speed, lying at her wharf at
the foot of Lafayette street, took fire
at 2:25 o'clock p. m., supposedly from
alcohol stored in the hold, and quick-
ly burned to the water's edge. The
boat and cargo are a total loss. Cap-
tain Don Marr was aboard when the
flames first ascended. A general fire
alarm was turned in, but not before
the wharves had taken fire and a very
large section burned away. Fire en-
gine No. 14, which was backed up near
the water's edge, slipped into the river
because of an accident to the wedges
under the wheels, and now lies at the
bottom of the river. A diver will be
sent down immediately to try to re-
cover it. The loss will be, including
the cargo and the wharves, \$75,000.

First to Fly the Cuban Flag.

New York, May 23.—The Ward line
steamer Vigilancia, which sailed for
Havana during the day, is the first ship
to leave this port flying the flag of
the new Cuban republic at her fore-
Herbert G. Squiers, the first United
States minister to Cuba, accompanied
by his wife and daughter, sailed on the
Vigilancia.

A Statue to Baron Steuben.

Washington, May 23.—Representa-
tive Barthold of Missouri has intro-
duced a bill for the erection of an
equestrian statue to Baron Steuben
and appropriating \$50,000 therefor.
The statue is to be erected in this city
as a recognition of Steuben's friend-
ship for the United States.

To Remove the Wreck of the Maine.

Washington, May 23.—A bill has
been introduced by Senator Lodge pro-
viding for the removal of the battle-
ship Maine from the harbor at Havana
and the recovery of the bodies of the
American sailors who sank with the
vessel. The bill appropriates \$1,000,-
000 for the purpose.

Cuban Festivities Have Ended.

Havana, May 23.—A grand civic
procession occurred here during the
afternoon and the three days' festivi-
ties attendant upon the inauguration
of the Cuban republic ended with a
banquet to President Palma given by
the municipal council of Havana.

Indicted on Ninety Counts.

Helena, Mont., May 23.—H. H. Mat-
terson, former cashier of the First Na-
tional bank of Great Falls, has been
indicted on 90 counts on the charge of
embezzling \$198,000 while cashier of
the bank.

TELEGRAPHIC BREVITIES.

Pennsylvania Prohibitionists have
nominated Rev. Silas C. Swallow for
governor.

The condition of Lord Pauncefoot
is reported to be slightly improved,
but he still continues very weak.

Congressman James A. Norton was
renominated for his fifth term by the
Thirteenth (O.) district Democrats.

Rear Admiral Schley Thursday night
was initiated into the Order of the
Mystic Shriners at Washington. About
800 members were present.

The house committee on rules has
decided to report a rule allowing a day
for the consideration of the Corliss
Pacific cable bill and time for the con-
sideration of the irrigation bill.

The Great Dismal Swamp.

Of Virginia is a breeding ground
of Malaria germs. So is low, wet or
marshy ground everywhere. These
germs cause weakness, chills and
fever, aches in the bones and muscles
and may induce dangerous maladies.
But Electric Bitters never fail to
destroy them and cure malarial
troubles. They will surely prevent
typhoid. "We tried many remedies
for Malaria and Stomach and Liver
troubles," writes John Charleston, of
Brysville, O., "but never found any-
thing as good as Electric Bitters."
Try them. Only 50c. McFadden

MEDERINE REMEDY CO.
It took only two bottles of MEDERINE to cure
me of Rheumatism of the shoulder. The first
bottle reduced the pain and swelling and the
second cured me. Still it took two more bottles
to cleanse my system of the disease.

Mayor General Stevens of Duluth Succumbs to Brights Disease.
Duluth, May 23.—G. Fred Stevens, mayor general of logs and lumber in this district, died very suddenly in his home here from an acute attack of Brights disease. Mr. Stevens had been in very low for several days past, during the night and early morning his condition was so much improved that it was believed the danger was past. Deceased was 35 years of age and is survived by a wife. For several years he has been a prominent lumber shipper and saw mill proprietor. He took an active part in the last gubernatorial campaign and was rewarded for his efforts by appointment to the office he held at his death.

New York, May 23.—The annual congress of the Salvation Army is in session here. Commander Booth Tuesday announced that the commander-in-chief, General William Booth, would visit this country in October next. Nearly 500 delegates from all parts of the United States are attending the congress.
